

Dear-Future

We are getting ready for you

Sponsorship Package

www.dear-future.org

Dear friend,

We at Dear Future would like to thank you for considering us and for reading this message.

We hope to make our message compelling in the following pages, and that YOUR COMPANY and Dear Future can become partners in a beautiful and meaningful way.

Dear Future was started to bridge the gap between education inequity and the potential all children have. We realized that the future isn't ours, it belongs to our children; however the present is entirely under our responsibility and control. We chose to make a difference and with your help, we can continue to bring absolute needs to the communities that are educating the future of our world.

Here is the problem: over 260M children in the world are not attending school; families are choosing to pull their children out of school because they can not afford essentials; like pencils, notebooks, paper, coloring pencils, etc. There are many countries that are severely affected by poverty, violence, inequality, and many other reasons that prevent kids from attending.

After much research, Dear Future focused its work in ensuring children in remote and extremely poor regions of the world attend school with the essentials for education. We deliver school supplies to remote regions where kids would otherwise go without; where they beg for a pencil and a piece of paper to take notes, or practice their drawing skills, or their hand/eye coordination skills.

Since we started in March of 2021, we have outfitted 102 children with the bare essentials to receive and retain knowledge. Our plans for the beginning of the following school year is to outfit upwards of 250 children with all their needs, including: school supplies, backpacks, uniforms, shoes and much needed supplies for the teachers whom deliver the magic. We also want to bring 21st century resources, such as school computers.

We cannot do this without the help of hundreds of supporters that have cheered us on since the day we announced our company. Our audience is diverse, international and growing every quarter. There is a strong desire to help and there is a great opportunity for YOUR COMPANY to be part of this effort. Along with our audience, donors and YOUR COMPANY, we can create a feeling that can compare to nothing, absolutely nothing...

We are small, but our ambition is to grow exponentially to serve as many children as we can; in an organized, responsible, transparent and kind manner.

Your donation will enable us to continue giving today, and will ensure we can continue to give in the future; we have a team that is committed to making Dear Future a success story, but with you, this can be our joint story.

Sincerely thank you,

Ric Juarez

Our Basic Facts

OUR VISION

OUR MISSION

OUR METHOD

OUR PROGRAMS

OUR SUCCESS STORIES

Our Vision:

Education and Health for Every Child

Our Mission:

To eliminate the obstacles to great Education and Health for children living in remote and extremely poor regions of the world.

Our Method:

We seek and contact schools in remote areas of the world, where poverty has stricken their ability to operate efficiently and children are suffering the consequences. Second, visit and create relationships with the school leadership to evaluate the need.

After the evaluation determines the school to be a successful candidate for support, we make a plan to support.

Lastly, we deliver needs.

Our Programs:

1. All hands on “Utiles Escolares” - Our flagship program currently serving in the Andes of Peru, where we are learning the ropes in order to deploy this program **Globally**.
2. Postcards with Friends - a pen pal program that connects students from our global regions to those living in other countries. Our objective is to encourage a cultural exchange, foster understanding and to create global citizenship.

Our Success Story:

Since we launched in March of 2022 we have served 5 institutions of education in the Huanuco region of the Andes of Peru. We have delivered 900 lbs of school materials, served 102 children, and delivered 2 computers to 2 separate schools.
